

RESEARCH READY

Navigating the Research Process

JOURNEY

From your first research question to your first publication—learn the complete research journey.

DESIGNED FOR

Medical Students • Interns • Early Career Researchers

WHY JOIN?

Learn how to take a research idea from concept to publication through structured, step-by-step guidance by experienced researchers and academicians.

MEET THE SPEAKER

EPISODE 1 & 2

Dr. Prakhar Bajpai

BIO

- Incoming Research Fellow at Mayo Clinic, Rochester, USA , specialising in cardiovascular sleep medicine
- Published Researcher in gastroenterology and cardiology
- Director, GAIMS-USMLE Core Team
- Editor-in-Chief, GAIMS AXIS Publications
- Co-Director of the Doctors For a Cause Editorial Core

EPISODE 3

Dr. Vidya Jeevan

BIO

- Professor, MD MBBS , RajaRajeswari Medical College & Hospital
- 13+ years of UG & PG teaching
- 30+ research publications
- TEDx Speaker
- Research Mentor & Resource Person

EPISODE 4

Dr. Manasa A. R

BIO

- Associate Professor, Department of Community Medicine, RRMCH
- Public Health Specialist
- Nearly a decade of research experience
- Published researcher
- Mentor in Evidence-Based Healthcare

EPISODE 5

Dr. Aishwarya Subramanian

BIO

- Associate Professor, Department of Community Medicine, RRMCH
- 10+ years of teaching experience
- Community Mental Health Specialist
- Certified Life Skills Trainer (NIMHANS)
- 2 National & 5 International Publications

EPISODE 6

Dr. Mansha Batra

BIO

- MBBS Intern, Lady Hardinge Medical College, New Delhi
- ICMR-STs Scholar
- USMLE Step 1 Qualified
- Early Career Researcher

EPISODE 7

Dr. Ritu Chauhan

BIO

- MBBS Intern, Maulana Azad Medical College
- ICMR-STs Research Experience
- Medical Education & Healthcare Innovation
- Health Communication Research

EPISODE 8

Dr. Ajit Mahale

BIO

- Professor, Department of Radiodiagnosis & Imaging at Kasturba Medical College, Mangalore
- Medical Education & Research
- Scientific Writing & Publication Mentor
- Research Career Development Guide

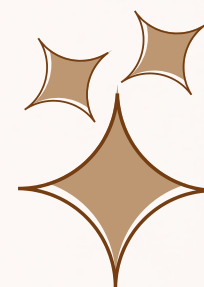

RESEARCH READY

Navigating the Research Process

SERIES ITINERARY

SESSION		TOPIC	DESCRIPTION	DATE
1		Research 101: Why Every Medical Student Should Learn Research & How to Find a Research Question	Learn why research is essential for every medical student, explore its role in academics and career growth, and understand how to develop meaningful research questions using the FINER and PICO frameworks.	10 th July
2		Literature Search Using PubMed & Google Scholar	Master effective literature searching using PubMed and Google Scholar, learn MeShS terms, Boolean operators, reference management, and identify research gaps efficiently.	13 th July
3		Study Designs Simplified	Understand various study designs including cross-sectional, case-control, cohort studies, and randomized controlled trials while learning how to select the most appropriate design for your research.	22 nd July
4		Data Collection, Questionnaire Design & Research Documentation	Learn how to design research questionnaires, use data collection tools, prepare case report forms (CRFs), and maintain high-quality research documentation.	27 th July
5		Research Ethics, Authorship & Plagiarism	Gain practical knowledge of research ethics, informed consent, IEC/IIR approvals, authorship criteria, plagiarism prevention, and responsible AI use in research.	1 st August
6		Research Protocol Writing: From Question to Methodology	Learn to prepare a structured research protocol by defining objectives, hypotheses, variables, outcomes, and inclusion/ exclusion criteria.	8 th August
7		Getting Started: Faculty Mentorship, ICMRSTS & Research Funding	Understand how to find mentors, navigate institutional approvals, prepare ICMR-STS proposals, explore research funding opportunities, and avoid common administrative mistakes.	15 th August
8		Scientific Writing, Publications & Your Research Career Roadmap	Learn scientific manuscript writing, journal selection, peer review, publication strategies, and how to build a strong long-term research profile.	23 rd August
